More cleaning capability with less hassle

Nilfisk Rental makes it easy to maintain or expand your cleaning capabilities with new top-grade equipment. By renting your Nilfisk equipment, you can free up cash flow in your business and eliminate risks and costs linked to ownership.

Our rental solution focuses on convenience and transparency, with service costs included. We ensure that you are supported throughout the process, from machine selection to ended rental period.

By renting your Nilfisk machine or fleet, you're opting for an end-to-end solution, including maintenance and servicing on-location by our trained and certified technicians. Our rental solution makes the administration of your fleet hassle-free, and all you have to focus on is your business, with maximized performance and uptime.

**Simplifying success
from start to finish.**

A Nilfisk Rental package is a plug and play solution for periods of 2-5 years, including machine setup, a full service program, and experienced assistance to help match your business and cleaning needs.
