

Tough enough for farm life  
Efficient enough for farm business

# Everything you need to boost your productivity

As consolidation is increasing within agriculture with a higher demand for automation and advanced equipment, we combine tailored systems for your facilities.

From pressure washers to vacuum systems and floorcare equipment be it mobile or stationary we can offer a product to meet your everyday cleaning requirement.

- Saves time on business-critical sanitation maintenance to ensure your productivity.
- Prolongs the lifetime of your equipment to increase productivity.
- Robust and easy-to-use products.
- Enhanced ergonomics means less operator fatigue and savings on labor costs.
- Increase safety and reduce risk by minimizing chemical fumes, slippery floors and slip-and-fall accidents.

Cleaning of stables and sties of animal manure, feathers and mud. From heavy applications with critical hygiene factors in e.g. pig and poultry farming, to less critical stable cleaning.

# Built for the challenges of livestock and dairy farming

Within livestock farming it is important to keep production running despite harsh conditions. Nilfisk cleaning machines are built to withstand these requirements and ensure that you can focus on your primary business.

Cleaning of vehicles and equipment prolongs the working life and ensures your productivity and effectiveness. Whether it is cleaning of mud and dirt or degreasing and de-oiling of machinery – Nilfisk can offer the right solution.

Smart accessories can help you with a powerful performance to reduce time spend and avoid fatigue during cleaning.

- Wash brush
- Rotary brush
- Under carriage washer
- Curved lance.

# Less time cleaning. More time working

Nilfisk cleaning equipment is easy, simple and safe to use and can help you save time spent on your everyday tasks. Intuitive design ensures that you do not have to spend long hours educating staff, as the products are simple to use.

Also maintenance is straight forward and hassle free providing you with reliable cleaning equipment that is always ready for a challenge.

Thoughtful and ergonomic design means that Nilfisk machines can be easily transported around your facility.

# The hygiene factor

Cleaning of dairy milking equipment and areas for hygienic cleaning and disinfection of material is vital to eliminate bacteria.

A high hygiene standard makes animals thrive and keeps your environment as well as your business in a healthy condition.

Great features are built into the Nilfisk products to ensure your productivity, health and safety when cleaning. From clever design to make machines easy to maneuver and effective sweepers ensuring dust-free cleaning to energy saving solutions.

# Tough jobs call for tough equipment

Outdoor and indoor cleaning equipment designed with your environment in mind. High pressure washers for various applications – from small to large and hot to cold. Vacuum cleaning of dry or wet surfaces and sweeping of indoor as well as outdoor areas. Nilfisk can provide a cost efficient solution for you. Our environmentally friendly cleaning solutions improve cleanliness

with fewer chemicals and less labor and significantly improve staff wellbeing.

Improving your facilities and enhancing your reputation is all part of our commitment to providing you with superior value, reliability and efficiency in everything we make and everything we do.
