– High pressure washers and vacuum cleaners

# Nilfisk – with you all the way

Every day, throughout the world, people need clean workplaces, institutions, factories, hospitals, schools, airports and homes. As global populations grow larger, and living standards improve, the demand for cleaning increases.

Since Nilfisk was founded, we have been determined to meet these demands with products and services of the highest quality worldwide. As a result businesses, public institutions and private households all over the world continue to rely on Nilfisk to keep their facilities safe, their office environments productive and their homes clean. In short, we are committed to clearing the way for a safer, cleaner and more productive every day.

## **Sustainable cleaning**

At Nilfisk we believe, that one of the key drivers for sustainable cleaning is achieving more with less. Less energy, less water and less detergent. This will reduce costs for you as our customer, whilst simultaneously reducing our environmental footprint.

Working responsibly is a key priority for Nilfisk. We have signed the United National Global Compact and Carbon Disclosure Project and as a consequence, we actively work on lowering our carbon footprint and closely monitor our resource consumption.

All of our production facilities are certified under ISO 9001 and ISO 14001, which ensures a standardised approach to production and the necessary environmental management system.

## **Making your business smarter**

Today, new technologies are radically changing industries. And how we clean in the years to come will be different from the way we clean today. Data will enable us to predict the need for cleaning; autonomous solutions will provide more precise outcomes and connected products will enable our more than 700 trained service technicians to deliver even better maintenance.

At Nilfisk we strive to be at the forefront of this technological development for the benefit of your business. We have dedicated engineers and product developers all over the world, who are working around the clock creating innovative cleaning technologies and solutions. Ensuring that we meet your cleaning needs and that we provide the best possible quality of clean – both today and tomorrow. Which is why, we have made it our vision to lead intelligent cleaning to make your business smarter.

# MC range – ideal for building & construction, agriculture, rental, industry and food industry

The MC range of mobile cold water pressure washers include solutions from semi-professional and infrequent use to our premium class range, ideal for the most demanding and heavy duty industrial cleaning tasks. The MC range clears the way for efficient cold water cleaning in a wide range of environments.

The MC 2C model is compact and lightweight unit designed for the most basic commercial cleaning tasks by craftsmen, tradesmen and around small farms. Robust and durable pump for low intensity or infrequent use.

The MC 3C is an innovative compact commercial pressure washer for everyday, light duty cleaning tasks. Easy to transport, the MC 3C also includes a wide range of storage solutions and an innovative detergent system to make cleaning more intuitive and productive.

Built on the same platform as the MC 3C line, the MC 4M is equipped with a more heavy duty pump and motor, ideal for more intense commercial cleaning applications. The detergent system improves cleaning efficiency both when using detergent and when only in normal high pressure mode.

The MC 5M range offers additional features for wider applications and more mobility. The range combines robustness, ergonomics, serviceability and pure cleaning power for extended use in tough environments.

The MC 6P FA range of cold water pressure washers brings together an unbeatable working life and durability, high cleaning performance and optimal ergonomics for the most demanding heavy duty cleaning tasks.

The MC 7P FA is equipped with the renowned, industrial class, C3 pump based on a tough 4 piston pump construction, double roller bearings, flow activated control system and 1450 rpm motor for long lifetime and low noise level. Ideal for the toughest of industrial applications.

The MC 7P FFA model is equipped with a stainless steel, non rusting frame and grey, non-marking wheels and hose to protect the working environment. The MC 7P FBFA food industry model includes an additional water break tank and external detergent injector ensuring full separation from the water network and the possibility to apply foam or special detergents.

The MC 8P is the ideal partner for applications requiring considerable cleaning power and water flow combined with a rugged and simple steel frame – perfect for agriculture, construction and transport.

All shown models are available with or without hose reel.

# The MH generation – high efficiency and intuitive use reducing cleaning costs

The MH line was the first hot-water range in the industry to implement an EcoPower boiler system that offers higher efficiency, reduced emissions and fuel costs. Across the entire MH range - from compact units to high-end industrial systems - you can count on fuel savings, cleaning efficiency, optimal handling and low emissions.

**EcoPower™**

The versatile MH 3C combines low running costs, high performance, ease of use, best in class mobility and great cleaning efficiency. The innovative design makes it easy to move over all types of surfaces. The Ergo accessory system contributes to even more comfortable use of the machine and assures durability and reliability. It is the ideal hot water unit for general light everyday cleaning.

The MH 3M and 4M generations combine compact and easy to manoeuvre design with high efficiency heating, low run costs and intuitive use. Both models are equipped with slow running industrial motors and the MH 4M is equipped with a pressure activated unloader system for even higher levels of user comfort and reliability.

The MH 5M, 6P and 7P are based on the same intuitive and mobile design concept as the MH 3 and 4. Equipped also with the high efficiency EcoPower™ boiler system, the models also offer the benefits of pressure activated unloaders systems for added comfort and on board maintenance diagnostics for reduced downtime and service costs.

The MH 6P and MH 7P ranges are equipped with our unique 4 piston pumps for heavy duty work cycles and long lifetime. The MH 6P also includes models with high water flow for tougher applications in transport, construction and agriculture.

In addition to these core models, Nilfisk offers the high power MH 8P which combines high pressure and high water flow for routine cleaning of large amounts of dirt.

The ergonomic and easy to use MH design is now adapted to an electrical heated hot water unit. Ideal for use in areas where exhaust gases must be avoided, the MH 5M E offers pollution free hot water cleaning.

# Independent of electrical power and normal water sources

The Nilfisk petrol and diesel powered range of cold and hot water pressure washers are totally independent of electrical power sources – and even of normal water sources – making them highly flexible. Powered by a petrol or diesel engine and capable of drawing water from a tank, river or well, they are the ideal solution for cleaning agricultural or construction materials in the middle of a field or building site. The ideal solution for all cleaning jobs, customised, efficient and economical.

The MH PE is a comprehensive range of petrol powered hot water models for professional use. Powered by a petrol motor and able to draw water from a tank, river or well, totally independent of electrical power and normal water sources. Ideal for fully autonomous use in the construction or agriculture, industrial segments or by contract cleaners. Easy to use control panel. Versions with high flow or high pressure.

MH PE exists in both mobile or trailer-mountable units and offer high efficiency, low cleaning costs and ease of use. A range of pump versions exist - direct driven or belt driven. All machines offer efficient and low cost water heating with the EcoPower™ boiler system.

The MH DE is a comprehensive range of diesel powered hot water models for professional use. Powered by a diesel driven motor and able to draw water from a tank, river or well, totally independent of electrical power and normal water sources. Ideal for all cleaning jobs in construction or agriculture. Easy oil drain from motor and pumps combined with the low pump oil safety function protects pump against running dry, keeping service costs low.

MH DE exists in both mobile or trailer-mountable units and offer high efficiency, low cleaning costs and ease of use. A range of pump versions exist - direct driven or belt driven. All machines offer efficient and low cost water heating with the EcoPower™ boiler system.

# Fixed cleaning applications – optimal cleaning – optimal profits

Nilfisk offers a full line of products for stationary cold and hot water units, also for self service applications. Ideal if you need to maintain high hygiene levels in a slaughter-house, kitchen or processing plant or if you need to degrease metal components on an industrial site.....

Nilfisk has the most complete range of stationary solutions on the market and is an ideal and trustworthy partner for your installation projects. We do not simply provide a standard product, but can modify it to your specific needs.

Machines can easily be installed in any location around a site. A carefully planned and optimised piping system will then ensure that you can easily and quickly clean the desired areas. Stationary units offer numerous advantages. For example, the units are pre-set for your own individual needs.

The SC UNO 4M is both a stationary and a portable cold water pressure washer unit. It can be easily carried from site to site with the robust steel transport handle or it can be placed as a fixed installation against a wall for stationary use thanks to the designed installation plate.

The SC UNO 5, 6, 7 and DUO models meet the latest demands for top performance levels within many different industries. Powered by either one or two pumps these cold water stationary units can handle heavy duty cleaning tasks. The innovative foam cabinet meets specific hygiene needs. The foam material is approved for use in the food industry, and as an added benefit, it reduces the noise level, adding comfort for both the user and the surroundings.

All models offer a variety of configurations according to user situations, and are built to be easy to understand and simple and intuitive to operate – at an attractive price level. Furthermore, intuitive user functions and the opportunity to customise the machines with equipment suited for your environment ensure high productivity.

The SC DELTA is a multi-pump, multi-pressure system encompassing 3, 4 or 6 pumps - and allowing up to 12 people to work at any time. The SC DELTA offers very high productivity and simultaneously enables of a wide range of user requirements of high & low pressures, different flow levels, and detergents. It is a very durable and reliable machine, with easy maintenance and minimal downtime. The high productivity combined with low maintenance cost offers the best-in-class total cost of cleaning.

The SH SOLAR E offers electrical heated hot water cleaning and the SH SOLAR D and G lines offer efficient and low cost water heating with the EcoPower™ boiler system. This gives you hot water at the lowest possible cost. At full power, the boiler offers significantly hotter water, thus reducing cleaning time for tasks involving oils, and greases.

The SH TRUCK is a simple, robust and corrosion proof hot water (diesel fired) stationary unit for permanent outdoor placement. The unit is equipped with cabinet insulation and electrical powered heater fan for frost protection and all year round cleaning. It is the ideal outdoor stationary pressure washer for use in haulage companies, fleet parks or for cleaning of animal and food transport vehicles near slaughterhouses. The SH TRUCK is equipped with the high efficiency EcoPower boiler offering reduced fuel consumption and costs.

The SH AUTO motor pumps are controlled by a frequency modulator, adjusting the incoming electrical frequency to the motor unit. As the frequency is adjusted, motor speed is increased or decreased accordingly. As a result of this change in speed, water flow and pressure from the pump are modified by a change in speed of the pistons. This technology reduces wear and tear and enables us to implement pumps without additional complex unloader parts. In addition, running at lower frequencies and speeds, motor pumps are much quieter...giving a more comfortable cleaning experience for the user.

## Ideal cold water cleaning for everyday tasks

- Automatic start/stop
- Ergo 2000 gun
- Ergo plus accessory concept
- Brass cylinder head
- Axial pump
- Steel reinforced High Pressure Hose (standard 10 m, XT 15 m)
- Detergent injector hose and doser
- Removable integrated detergent tank (2 l)
- Water flow regulation on all models
- 4-in-1 lance - four optional variable nozzles in one single lance

The MC 2C range is designed for low intensity use and routine cleaning tasks. They offer excellent cleaning performance, professional spray equipment, accessory storage and easy handling.

## Compact cold water high pressure washers with external foam sprayer detergent system

- Pressure activated unloader system
- Pump oil tank with oil level sight and fill/empty function
- Easy opening and removing of cabinet for access to the pump
- Innovative holder protects Spray Gun from damage during storage and transport
- Turnable cable hook for easier removal and wind-up of power cable
- Robust design with large wheels - easy to manoeuvre over rough surfaces and steps
- Aluminium lifting bar

The MC 3C is designed for light, general cleaning tasks and is the ideal choice for tradesmen, small building companies, small garages and farms. This range is equipped with a professional 2800 rpm motor pump unit with stainless steel pistons developed for low to medium intensity use.

## Innovative and versatile mid range cold water high pressure washers

- Tough and sturdy design with 30mm steel frame
- Optimal storage and transport with foldable handle and easy lifting points
- High mobility with large rear wheels and front castor wheel
- Easy accessibility to pump, optimal service concept
- Ergonomic accessory concept

The MC 5 PA-FA mid range pressure washers are the most versatile partners for demanding customers in agriculture, industry, construction and automotive. The MC 5M range succeeds in combining an unmatched level of mobility and ease of use with unbeatable robustness, optimal service and great accessory storage features.

## Innovative and versatile mid range cold water high pressure washers

- Tough and sturdy design with 30mm steel frame
- Optimal storage and transport with foldable handle and easy lifting points
- High mobility with large rear wheels and front castor wheel
- Easy accessibility to pump, optimal service concept
- Ergonomic accessory concept

The MC 5 PA-FA mid range pressure washers are the most versatile partners for demanding customers in agriculture, industry, construction and automotive. The MC 5M range succeeds in combining an unmatched level of mobility and ease of use with unbeatable robustness, optimal service and great accessory storage features.

## Heavy duty for intensive use in a wide range of applications

- NA6 4 ceramic piston pump with 80°C inlet temp
- Tough and sturdy design with 30mm steel frame
- Optimal storage and easy to transport with foldable handle and easy lifting points
- High mobility with large rear wheels and front castor wheel
- Easy accessibility to pump, optimal service concept
- Ergonomic accessory concept
- Flow activated control system
- Low pump oil safety function

The MC 6P range of cold water pressure washers brings together an unbeatable working life and durability, high cleaning performance and optimal ergonomics for the most demanding heavy duty cleaning tasks for industry, agriculture, shipping, transport sector and food industry.

## Ultimate industrial quality for the toughest of industrial applications

- C3 4 ceramic piston pump with 85°C inlet temp
- Tough and sturdy design with 30mm steel frame
- Optimal storage and easy to transport with foldable handle and easy lifting points
- High mobility with large rear wheels and front castor wheel
- Easy accessibility to pump, optimal service concept
- Ergonomic accessory concept
- Low activated control system
- Low pump oil safety function

The MC 7P industrial range of cold water pressure washers combines the renowned lifetime and quality of the C3 pump with optimal ergonomics to bring an unbeatable heavy duty pressure washer for industry, agriculture, shipping, transport sector and food industry.

## The ultimate in durability and robustness for tough applications requiring high water flow

- Tough steel or stainless steel frame variants
- Slow running 1450 rpm motors with low noise level
- Ceramic pistons for longer working life
- Simple and easy to use
- Parking brake
- 15m HP hose

The MC 8P is a tough, robust cold water range combining high water flow and high pressure. The MC 8P is available with both powder coated frame or stainless steel frame for additional resistance in tough environments.

## Compact and high performing

- EcoPower™ boiler with EcoMode function
- EcoPower™ boiler >92% efficiency giving reduced fuel costs
- Brass pump head
- Pressure activated unloader system
- Innovative design with 4 big wheels
- Easy to transport, can even be pushed/pulled across uneven surfaces
- Oil tank and oil sight
- On-board diagnostics function

The MH 3C offers high cleaning efficiency and low running costs via optimal cleaning and heating performance. It is the ideal hot water unit for general light everyday cleaning in applications such as automotive, craftsmen and light agriculture.

## Optimal ergonomics and reliable cleaning

- EcoPower boiler with EcoMode function
- Pressure activated unloader system
- Simple fuel level sight
- Easy access to components
- Easy pump oil service functions with tank and oil sight
- Innovative design with 4 big wheels
- Easy to transport, can easily be pushed/pulled across uneven surfaces

The MH 3M is ideal for all hot water commercial and light industrial cleaning tasks and it offers higher efficiency and quicker cleaning thanks to the improved fuel saving EcoPower boiler system. Furthermore, service and maintenance can be carried out quickly, as all vital parts are easy to inspect and reach. The MH 3M is equipped with our industrial NA4 pump with 3 ceramic coated pistons and a high efficiency 4 pole motor.

## High performance, long life & optimal manoeuvrability

- EcoPower boiler with EcoMode function
- EcoPower boiler >92% efficiency giving reduced fuel costs
- Brass pump head 3 ceramic pistons
- Pressure activated unloader system
- Innovative design with 4 big wheels
- Easy to transport, can easily be pushed/pulled across uneven surfaces
- Oil tank and oil sight
- Low pump oil warning system
- Low fuel warning system
- On-board diagnostics function

The MH 5M series offers high cleaning efficiency and low running costs via optimal cleaning and heating performance. It is the ideal hot water unit for segments such as automotive, agriculture and industry.

## Electrically heated hot water for exhaust gas free heating

- Pollution free electrical heating
- Precise temperature control and fast heating effect
- 1450 rpm motor with low noise level
- QuickService concept reduces maintenance costs
- Easy to use control panel, all controls in one place
- Ergonomic accessory system for additional user comfort
- Max. inlet temperature 60°C

The ergonomic and easy to use MH design is now adapted to an electrical heated hot water unit. Ideal for use in areas where exhaust gases must be avoided, the MH 5M E offers pollution free hot water cleaning.

## Tough and efficient - for heavy duty applications requiring high water flow

- EcoPower boiler with > 92% efficiency for reduced fuel cost
- 1450 RPM motor
- High flow pump
- Easy to use control panel
- Steel frame and chassis
- Quick service concept reduces maintenance costs
- Optimal machine protection against low fuel, low pump oil. Includes flame sensor and exhaust gas temperature sensor.
- Diagnostics system
- Two way chemical dosing system with automatic flush system
- Max. inlet temperature 40°C

The high power MH 8P combines high pressure and high water flow for routine cleaning of large amounts of dirt in the agriculture, construction, transport or industrial segments. The MH 8P combines high cleaning effect with high rinsing and flushing effect.

## Robust and powerful diesel driven cold water high pressure washers

- Robust long life pump with ceramic pistons
- Durable design
- High pressure level
- Easy to manoeuvre
- Ergo accessory concept

The MC DE range is ideal for use in areas where electrical power may not at all be available or not be strong enough to allow high power cleaning. Self priming and suction ability also means that water can be drawn from a tank or river. Ideal for use in building and construction, rental, agricultural segments.

## Hot water heavy-duty petrol and diesel pressure washers

- EcoPower boiler with > 92% efficiency with reduced running costs
- Slow running pumps either by belt drive or by direct gear reduction
- Integrated fuel tank
- Easy to use control panel
- Ergo accessory concept
- Honda petrol motors and Yanmar diesel engines
- Mobile units or trailer mounted
- Easy transport by forklift truck
- Low pump oil safety function
- Easy oil drain from pump and motor reduces maintenance costs
- Anti-calc/ water break tank as an option
- Optional wheel kit for larger models

The MH PE/DE is a comprehensive range of petrol and diesel powered hot water models for professional use in areas where electrical source is not available. Models can also typically draw water from tanks, wells or rivers giving a high level of use autonomy. The MH PE/DE range offers ideal solutions for hot water cleaning in construction and industrial segments, or by contract cleaners or public authorities.

## A portable and stationary mounted unit all in one

- Powered by 1450 rpm high efficiency motor (50 Hz)
- Brass pump head
- 3 ceramic coated pistons
- Pressure activated unloader system
- Enclosed oil system
- Robust steel transport handle
- The unit can operate both in a vertical and in horizontal position
- Lightweight (compared to competition)

The SC UNO 4M is both a stationary and a portable unit. It is simple and intuitive to use and cost effective. Delivered with all the accessories it is ready for immediate use. Designed for heavy duty cleaning tasks the SC UNO 4M is a reliable choice for light agriculture, building and construction and automotive areas etc.

## Stationary 1-pump high pressure washers for flexible cleaning

- NA6 and C3 high-quality heavy industrial motor pumps with brass pump heads
- 1450 rpm; 4 full ceramic pistons and double roller bearings
- It is possible to feed the units with hot inlet water from 70°C (with break tank) to 85°C (direct feed) for max. cleaning efficiency
- Powered by 1450 rpm (50 Hz) closed industrial motor
- NA5.2 reinforced wobble disc pump
- 3 ceramic pistons and brass pump head
- Foam sprayer for use of detergent on SC UNO 5M L
- Accessory kit for immediate plug & play use
- Low pump oil safety function and warning lamp
- Hour counter and service warning lamp
- NEO control system; enabling optional functions: Remote control, low water safety etc.

The SC UNO range of industrial stationary cold water high pressure washers is made up of the 5M, 5M L, 6P and 7P models. The range has been designed with innovative steps to meet the specific hygiene needs and to meet heavy-duty cleaning challenges with convincing performances. Furthermore, intuitive user functions and the opportunity to customise the machines with equipment suited for your environment ensure high productivity.

## Stationary 2-pump high pressure washers for heavy cleaning tasks

- NA6 and C3 high-quality motor pumps with brass pump heads
- 1450 rpm; 4 full ceramic pistons and double roller bearings
- Water flow up to 2x1800 l/h
- 70°– 85°C hot water inlet for max. cleaning efficiency
- Innovative hard foam cabinet - approved for the food industry
- Built on powder-coated steel frame
- Foam cabinet also reduces the noise level
- Foam cabinet can be removed without tools for direct access to pump
- Incl. low pump oil warning lamps, service warning lamp, hour counter, low pump oil safety

The performance level of the SC DUO 2-pump cold water high pressure washer range has significantly increased. Thanks to higher working pressure and increased water flow, even large heavy-duty cleaning jobs can be handled with ease. Built for use in excess of 6 hours per day, each model can be customised to meet your exact cleaning needs and ensure a lower Total Cost of Ownership.

TECHNICAL DATA	SC DUO 6P-170/3220	SC DUO 7P-180/2400

## Stationary high pressure washers for multiple users

- 3,4 or 6 pumps for up to 12 users at one time
- Colour coded lances allow mixed use of low, medium and high pressure, detergent application
- Inlet water of up to 85°C into break tank and 70°C through pumps (80° as optional)
- Stainless steel design with high level of accessibility and serviceability
- Machine continues to run whilst individual pumps can be removed for service
- Intelligent start stop function for motor pumps depending on real-time demand from users
- Line pressures available from 80 to 160 bar
- Touch screen control panel & advanced diagnostics system

The SC DELTA is a multi-pump, multi-pressure system encompassing 3, 4 or 6 pumps - and allowing up to 12 people to work at any time. A stationary cold water unit for the heaviest cleaning applications in industry, slaughter houses, food & beverage industry, ship & offshore industry and large truck wash areas.

## Diesel powered stationary hot water pressure washers

- Brass cylinder head
- Expandable control technology with PLC and customisation is possible through options
- Automatic diagnosis and fault finding
- High efficiency, low cost heating system with EcoPower boiler system
- Galvanised and powder coated steel frame and cabinet
- Reduced running and service costs
- MMO - Multiple Machine Option (optinal extra)

The SH SOLAR stationary hot water pressure washer range offers low heating and running costs combined with a design that is easy to use and service. Ideal for tough applications in automotive, industry, shipping and food sectors.

## Electrically heated stationary pressure washers

- Brass cylinder head
- Expandable control technology with PLC, and customisation possible through options
- Automatic diagnosis and fault finding
- Pollution free, heating system
- Galvanised and powder coated steel frame and cabinet
- Reduced running and service costs
- Large 119 litre heating tank for excellent heating capacity
- Available up to 54 kW heating
- C3 longlife pump with 4 ceramic pistons
- MMO - Multiple Machine Option (optional extra)

The SH SOLAR E range of stationary hot water pressure washers offers low heating and running costs combined with a design that is easy to use and service. Ideal for use in the automotive, industrial, food and shipping sectors. Electrical heating is exhaust gas and pollution free.

## Gas powered stationary hot water pressure washers

- Brass cylinder head
- Expandable control technology with PLC, and customisation is possible through options
- Automatic diagnosis and fault finding
- Efficient gas heating systems
- Galvanised and powder coated steel frame and cabinet
- Reduced running and service costs
- MMO - Multiple Machine Option (optional extra)

The SH SOLAR range of stationary hot water pressure washers offers low heating and running costs combined with a design that is easy to use and service. Ideal for use in the automotive, industrial sectors or other sites possessing a gas supply line, avoiding the need to provide a diesel fuel supply.

## Stationary hot water pressure washers for permanent outside placement

- Stainless steel robust design against corrosion
- EcoPower boiler for reduced fuel consumption costs
- Silent power, low noise level with 1450 rpm motor pump units
- Simple control panel with only 4 buttons
- ERGO accessories for added user friendliness
- Internal frost protection down to minus 20°C
- Compact design
- Available in both single-phase and three-phase formats

The SH TRUCK is a simple robust and corrosion proof stationary unit for permanent outdoor placement. Enabling constant cleaning of trucks, vans, commercial and construction vehicles, the SH TRUCK is even frost protected for use in winter.

## Innovative technology for quicker payback time on self service washes

- Low wear and tear and service requirements reduce maintenance costs
- Low daily run costs through reduced fuel, water and electrical consumption
- Available with steel and stainless steel coils in diesel fired models for areas with hard or soft water
- Available with electrical heating system for pollution free cleaning
- Ergonomical and pressure relieved accessories for extra comfort in use
- Low noise levels

The SH AUTO 5M is a range of stationary self service wash units equipped with innovative frequency modulated motor technology. The ideal pressure washer unit for equipping service stations or car dealerships with a self service wash site.

# Increased flexibility with Nilfisk accessories & options

The SC UNO, SC DUO and SH SOLAR can be equipped with an electronic control board. This gives the possibility to use a wide range of factory-mounted options and equipment such as remote control, coin boxes, pressure relief... The use of options means that a standard machine is quickly and easily configured to become a customer-specific solution.

Item no.:	Accessory or Factory Mounted Option	Description	SC UNO 4M PS	SC UNO 5M L	SC UNO 5M, 6P, 7P	SC DUO 6P, 7P
107371020	Accessory	Water Break Tank (WBT) max 40 l/min	X	X	X	X (SC DUO 6P requires 2 WBT)
107371023	Accessory	Water Inlet Security			X	X
107371024	Accessory	Low Water Security Pressure switch on water inlet of stationary units. Set to 1 bar. If inlet water pressure is lower than 1 bar - the motor pump stops avoiding the unit running in "dry" mode. Needs a service technician to activate the accessory.			X	X
107371025	Accessory	2 x High pressure Detergent (Also needs Remote Control 107371026) Injection of 2 x detergent at high pressure. Volume can be adjusted on the detergent pumps. (0-13 l/hour). Needs a service technician to activate the accessory.			X Requires remote control and WBT	X Requires remote control and WBT
107371026	Accessory	Remote Control 6 functions Needs a service technician to activate the accessory.			X	X
107371027	Accessory	Coin Box ON-OFF + Detergent A-B (EUR, CHF, GBP) Coiner can be taught all coins Needs a service technician to activate the accessory.			X	X
107371028	Accessory	Pressure Relief If the system is not in use for a period of time (can be adjusted) the machine will close down and relieve the pressure in the high pressure line. Needs a service technician to activate the accessory.			X (Requires WBT)	X (Requires WBT)
107371029	Accessory	Accessory Storage and high pressure hose Can storage 3 lances, one foam sprayer and high pressure hose.	X	X	X	X
107371013	Accessory	Junctionbox Remote/slave. Connection box for remote control extension cable. Needs a service technician to activate the accessory.			X	X
107371000	Factory Mounted Option	Water Break Tank (WBT) max 40 l/min	X	X	X	X (SC DUO 6P requires 2 WBT)
107371014	Factory Mounted Option	Water Inlet Security Opens and closes a solenoid valve on the water inlet line, at the same time as the machine starts and stops. Needs a service technician to activate the accessory.			X	X

○ Supplementary accessories adapters not required  
 ● Standard equipment or recommended equipment

The product increases cleaning width and reduces cleaning time compared to standard lances and nozzles in a very cost effective way. The HydroScrub's are robust and efficient surface cleaners for floor, wall or table cleaning tasks.

### Application and customer groups:

The HydroScrub's are perfect tools for cleaning of surfaces in the automotive/transport segment, in food industries and for craftsmen. The different models can be used on machines in the low, middle and high range of High Pressure Washers.

The HydroScrub is an effective tool for cleaning various large flat surfaces, and must be connected to Nilfisk high pressure washers fitted with the original size of nozzle.

**Powerful and cost efficient cleaning for professional users**

- High pressure 350-500 bar
- Solid, galvanised and powder-coated frame
- Stainless steel top cover for protection and hose storage
- Big handle for easy manoeuvring and storage of cables and hoses
- Compact design - can go through a standard size door
- Easy access to pump for service and maintenance
- Inlet filtration system

Heavy-duty high pressure water blasters offer powerful and cost efficient cleaning for professional users. Removing paint, rust, markings and graffiti on steel and concrete surfaces.

- Cleaning scaffolding material
- Cleaning construction machinery and equipment
- Removing limescale deposits and marine growth
- Deck cleaning and cleaning of cargo hold

## Be sure you have the right tool for the job

- High pressure 500-800 bar
- Solid, galvanised and powder -coated frame
- Non-corrosive material used in pumps and fittings
- Unique pump design with 3 ceramic plungers
- Built-in stainless unloader/safety valve
- Start-up accumulator
- Easy access to pump for service and maintenance
- Low water level cut-off switch
- Built-in trigger gun holder and cable holder
- Drip return ensuring long seal life and drip free operation (MERMAID 800)
- Identical suction and discharge valves, easily replaceable (MERMAID 800)

Perfect for deck cleaning and cleaning cargo holds. Furthermore, they offer dust free sandblasting. These machines are designed not only to clean surfaces, but also to blast off scale, grime, rust, graffiti and even cut through concrete.

# Features – designed to meet our customer needs!

Nilfisk offers you a complete range of innovative and powerful wet & dry vacuum cleaners - all designed to accommodate not only your most demanding professional cleaning needs, but also to match your specific level of requirements in terms of suction power, with features such as advanced filtration, very low noise, high performance and automatic or semi-automatic filter cleaning.

---

## **XtremeClean™**

This advanced technology delivers automatic filter cleaning while you work at full vacuum performance. Using either valve or servo based solutions, XtremeClean™ ensures an even longer lifetime, high efficiency and prevents power loss through restricted airflow – without interruptions.

---

## **InfiniClean™**

InfiniClean™ automatically cleans the filter during operation using a reversed air pulse that is activated every 15 seconds – increasing the airflow up to 20%. The durable and washable PTFE long-life filter with non-stick membrane can be used for both wet and dry pick-up.

---

## **Push&Clean™**

This technology allows fast and simple cleaning of the filter cartridge. When pushing the filter cleaning button, the surrounding air enters the filter cartridge in the opposite direction. Dirt is blasted off the filter and the suction performance is high again. A comfortable, powerful yet gentle way of cleaning the filter.

---

## **MultiFit™**

MultiFit was conceived so that all suction hoses, regardless of whether the diameter is 27, 32, 36, 38 or 50 mm, can be connected to the vacuum without further expenditure. On most models, the MultiFit hose inlet gives the flexibility to choose between universal or AntiStatic hoses.

---

## **SoftStart™**

A voltage dropout can lead to system break downs if the appliance is sensitive to voltage fluctuation. SoftStart keeps the starting current low and reduces voltage dropout. The function is certified by an independent testing institution.

---

## **AntiStatic**

The friction of dust particles can cause a build-up of static electricity in the hose which can cause electrical shocks or even ignite explosive material or combustible dust. The Nilfisk AntiStatic system means that the vacuum inlet fittings are earthed and electrostatic charges are prevented.

---

## **AutoOnOff™**

By connecting the tool directly to the machine, dust is vacuumed directly from source and the vacuum is switched automatically on and off with the tool. Follow up controls are included for the complete emptying of the suction hose and continuous power regulation.

---

## **SystemEC™**

The SystemEC, used in all Nilfisk ATEX ZONE 22 vacuums, is a single-phase drive system developed with an electronically commutated direct current motor. The motor is electronically controlled, making carbon brushes unnecessary.

---

## **FlowSensor™**

This patented technology, used in all Nilfisk H and M class and TYPE 22 vacuum cleaners electronically measures air flow directly with the use of two thermal gates. Air flow can be determined in all operating conditions regardless of hose diameter and/or power supply fluctuation.

# Powerful, intelligent and economical – whichever vacuum cleaner you choose

Nilfisk offers a wide range of commercial and industrial vacuum cleaners, providing cleaning professionals with the right solution for every task. Our range of vacuum cleaners covers everything from dry canister vacs to wet & dry vacs.

## Commercial dry vacuum cleaner

The SALTIX 10 is a reliable and compact tub vacuum for everyday use. The powerful motor and high quality nozzle ensures superior efficiency and the durable design makes sure that the machine can be relied upon day in and day out. The high filling capacity of the SALTIX 10 means less time spent changing dust bags and the lightweight design makes it easy to move from place to place. To help with easy maintenance and to maximise safety, an orange detachable power cord is included as standard.

## Commercial wet & dry vacuum cleaners

The MAXXI II platform includes durable machines with 35 to 75 litre containers that can take on any application, big or small. With outstanding performance and features like easy emptying and corrosion resistance, our range of wet & dry vacs perform well on dry, wet or damp dirt. The dual filter system allows the machine to be used on both wet and dry applications without the need to change filters. It combines productivity, high quality and ease of use into a workhorse of a wet & dry vacuum cleaner.

## Compact single-phase wet & dry vacuum cleaners

The AERO 21/26 series feature the Push&Clean™ semi-automatic filter cleaning system, ergonomic design and convenient accessory storage. Being compact, lightweight and robust, these vacuums can easily be transported to any location making them ideal for workers within industry, automotive and building & construction. These are available in a 20 or 25 litre container capacity.

# ATTIX range – top performance with less hassle

The ATTIX range is designed for demanding clean-up applications and always with the user in mind. Always ensuring productivity and efficiency wherever heavy cleaning is necessary, or where potentially hazardous dust needs to be safely collected.

## Industrial single-phase wet & dry vacuum cleaners

The ATTIX 30, 40 & 50 represents a possibility of achieving superior suction power and innovative features. Silent and mobile, wet or dry - when high performance and robustness is required. Available with Push&Clean™ semi-automatic filter cleaning system.

The ATTIX 33 & 44 represents superior dust extraction for professional and safe cleaning. They are robust and easy to handle – also when it comes to transportation from one site to another. All models offer flexible storage solutions for tools and accessories, so everything you need is at hand.

The ATTIX 7 is perfect for users who need big capacity and features that focus on efficiency. Our most silent vacuum with superior suction performance, stainless steel tilt or lift-out container, XtremeClean™ automatic filter cleaning, antistatic capability and more.

The ATTIX 9 is designed with dual motors to withstand the toughest applications. With the ATTIX 9 range, the high end of the industrial vac line of Nilfisk is complete! A versatile, high performance unit for demanding everyday vacuuming.

## Industrial single-phase and three-phase wet & dry vacuum cleaners

The ATTIX 115 and 125 industrial vacuum cleaners are ideal for liquids and solid materials with a performance to perfectly satisfy any cleaning and maintenance situation. The robust steel construction, powerful turbine and the big container on wheels grant a high reliability and mobility capable of working for hours.

## Self-service vacuum cleaners

Modern, attractive and flexible. Developed primarily for use in petrol stations, the SB series is built for the rigors of outdoor use in all kinds of weather.

Coin-operated self-service vacuums with special requirements. Single motor or dual motor machines are available. All models use a simple cloth filter system for easy maintenance. Done to perfection, down to the smallest detail.

# The ATTIX Safety range – a solution for every need

Hazardous dust demands the highest level of safety to ensure maximum health protection. Nilfisk health and safety vacuum cleaners span all dust classes – **L** (low), **M** (medium), **H** (high), **Asbestos** and explosive dusts classified as **ATEX Type 22**.

## L class safety vacuums

Dusts from dust class L may be picked up using these vacuum cleaners. These include dusts with OEL values  $> 1 \text{ mg/m}^3$ . This is the standard for simple, harmless dust such as house dust and materials such as soil.

## M class safety vacuums

Dusts from dust classes L and M may be picked up using these vacuum cleaners. These include all health-endangering, non-carcinogenic dusts with OEL-values  $> 0.1 \text{ mg/m}^3$  and wood dusts.

Application: Industry sectors as chemicals, wood, plastics, metal, pharmaceuticals, paper and textiles; for craftsmen including carpenters, joiners and painters. If you are working with M class hazardous dust, you will find the perfect wet & dry solution here.

## H class safety vacuums

Dusts from dust classes L, M and H including Asbestos may be picked up using these vacuum cleaners. These include all health-endangering dusts with OEL-values, all carcinogenic dusts and dusts contaminated with germs and bacteria.

Application: Industry and trade sectors as chemicals, plastics, pharmaceuticals, mining, paper and textiles; for craftsmen such as roofers and painters. If you are working with H class hazardous dust, you will find the perfect wet & dry solution here.

## ATEX zone 22 safety vacuums

Dusts from dust classes L and M as well as explosive dusts may be picked up using these vacuum cleaners. These include all non-carcinogenic dusts with OEL values  $> 0.1 \text{ mg/m}^3$  and/or flammable dusts in ATEX zone 22 applications.

Application: Industry and trade sectors as chemicals, wood, plastics, metal, pharmaceuticals, paper and textiles; for craftsmen such as carpenters, bakers and floor layers.

If you are working in an ATEX zone 22 explosive dust environment, you will find the perfect wet & dry solution here. Choose from many different container sizes and performance levels, all with features that will enhance your working efficiency and minimise your operating costs.

## Reliable and compact tub vacuum for everyday use

- Low sound pressure level of just 62 dB(A) makes this vacuum suitable for daytime cleaning
- Weighs just 5.5 kg making it easy to move from place to place
- Large 10 litre container with 8 litre dust bag net filling
- Detachable orange cord
- Entire machine, including hose and wand, can be carried safely and comfortably in one hand
- Certified HEPA filter as standard
- Lightweight aluminium tube

The powerful motor and high quality nozzle ensures superior efficiency and the durable design makes sure that the machine can be relied upon day in and day out. The very high filling capacity of the SALTIX 10 means less time spent changing dust bags and the lightweight design makes it easy to move from place to place.

## Commercial wet and dry dual filter vacuum cleaners

- Dual filter system to handle both wet and dry applications without the need to change filters
- Easy emptying (with motor head fitted)
- Stainless steel tubes
- Intuitive single handed locking mechanisms
- Wet mesh sack filter protecting the motor from foam ingress
- Flexible and handy mounting of tools and accessories
- Fixed steel push handle
- Tipping mechanism for easy emptying
- Transparent drain hose for indication of water level in the container
- The containers can be easily lifted off the trolley for cleaning or maintenance

The Nilfisk MAXXI II series of wet and dry vacuum cleaners contains three models 35, 55 and 75 litre containers. The dual filtration system allows the machine to be used in both wet and dry applications without the need to change filters. Thanks to MultFit connection the MAXXI II tools are compatible with all ATTIX accessories.

## Compact wet & dry vacuum cleaners with filter cleaning and simple features

- Washable PET fleece filter with minimum 99,9% filtration efficiency
- MultiFit accessory system for ultimate flexibility
- Convenient accessory and cable storage
- Exhaust air blow function
- Stable wheels and ergonomic design for safe operation

The AERO 21 is the smallest model in the AERO 21/26 series with compact design and easy to use features such as Push&Clean™ filter cleaning system and convenient accessory storage. The 20 litre machine has efficient suction performance, robust trolley and lifting handle.

## Compact wet and dry vacuum cleaners with filter cleaning and ergonomic design

- Washable PET fleece filter with minimum 99,9% filtration efficiency
- MultiFit accessory system for ultimate flexibility
- Convenient accessory/cable storage and tool deposit
- Exhaust air blow function
- Flexible rubber strap for hose storage

The AERO 26 is a reliable and compact vacuum developed with a high focus on the variety of applications and end-user needs within industry, automotive and building and construction. It is a lightweight and robust machine with ergonomic design, semi-automatic filter cleaning and convenient storage solutions. A Power socket with AutoOnOff activates the machine when the power tool operates providing efficient dust extraction from the power tool.

## Silent and mobile wet & dry industrial vacuum cleaners with superior suction power

- Compact, ergonomic and powerful
- Push&Clean™ filter cleaning system takes care of filter cleaning tasks in just a few seconds
- Washable PET fleece filter for high efficiency and low maintenance costs
- SilentPower. High performance that is seen, but not heard
- 30 litre container volume and a fleece filter bag for effective filtration

The compact size and big performance of the ATTIX 30, along with the wide range of available models, make it a perfect choice for people who move with their work from place to place. The ergonomic design and low noise level emphasise our focus on real user benefits and longer working time.

## Industrial wet & dry vacuum cleaner with stainless steel container

- Compact, ergonomic, and powerful
- Push&Clean™ filter cleaning system takes care of filter cleaning tasks in just a few seconds
- SoftStart™ will safeguard you from blown fuses
- High quality stainless steel container
- Low working sound level
- Washable PET fleece filter with minimum 99.9% filtration efficiency
- Accessory storage and tool deposit

The ATTIX 40 gives superior suction power in a compact and flexible solution. Silent, small and mobile, but with the same convincing suction performance as the larger ATTIX 50, this is the perfect solution for commercial and industrial use with an easy to clean corrosion proof stainless steel container.

## Superior and powerful dust extractor

- InfiniClean™ - Automatic filter cleaning system which minimises performance loss
- PTFE long-life filter with non-stick membrane and minimum 99.9% filtration efficiency
- Dust class L certification (selected models)
- Unique dual filter solution available with HEPA filtration
- 30 litre container with steel castors and robust bumper
- MultiFit accessory system for the ultimate in task flexibility
- Flexible rubber straps, tool box storage and optional trolley handle for convenient storage and transport
- Optional motor cooling filter, exhaust air collector and long-life filter bag

The ATTIX 33 series comes with superior suction power, sealed dust system, automatic filter cleaning and several other user benefits - designed to meet the tough requirements in building & construction and other industries. A superior solution for professional customers looking for a robust, safe and reliable machine.

## Twin-motor industrial wet & dry vacuum cleaners for the toughest applications

- Twin-motor industrial performance
- Washable PET Fleece, big surface filter for high efficiency and low maintenance costs
- Push&Clean™ filter cleaning system for high efficiency
- Stainless steel tiltable and removable 70 litre container for perfect handling and disposal
- 10 metre cable for a large working radius
- Applicable for wet & dry pick up by reliable floating system
- Robust fleece filter bag standard

Tough and reliable the ATTIX 9 is ideal for difficult cleaning tasks as well as daily maintenance cleaning. Its superb performance and quality construction make the ATTIX 9 a great choice for warehouses, factories and industry.

## Wet & dry vacuum cleaner for heavy-duty cleaning and hazardous dust collection

- Twin-motor industrial performance
- XtremeClean™ fully automatic filter cleaning system for high efficiency also available in H Class
- Big surface washable PET Nano filter cartridge for high efficiency and low maintenance costs
- Stainless steel sit down container for perfect handling and disposal
- 10 metre cable for a large working radius
- Disposal bag standard
- Socket for automatic on/off

The tougher the cleaning, the better the vacuum cleaner needs to be. This is why so much thought has gone into the design of the ATTIX 965-21 SD. With 7200 ltr. per minute of air volume, and 3000 W of maximum power, it is capable of fast, productive cleaning of dirt, metal chips and liquid spills. A range of 38 mm and 50 mm accessories are available and makes it possible to handle all kind of jobs.

## Triple motor single-phase industrial vacuum cleaners

- Three independent "by-pass" motors
- L or M class filter
- HEPA filter as option
- Easy manoeuvrability
- 100 litre SitDown container with castors & handle
- Manual Filter shaker as standard
- Mechanical floater as option for liquid collection
- Comfortable grip and robust steel chassis for durability and easy mobility

The ATTIX 115 & 125 are simple single-phase industrial vacuums designed for cleaning in manufacturing and heavy industry. The machines are ideal for collecting both liquid and solid materials such as metal chips mixed with oil/coolant. They have a large capacity, high suction performance and robust design.

## Ideal for heavy industrial vacuum cleaning

- Powerful and reliable
- Double stage side-channel blower connected in parallel for a highest airflow (ATTIX 155 only)
- SitDown container with castors and handle for a practical material disposal
- Comfortable grip and robust steel chassis for durability and manoeuvrability
- MultiFit adapter included for high flexibility in accessory choice

The ATTIX 145 & 155 are three-phase industrial vacuums designed for cleaning in manufacturing and heavy industry. The machines are ideal for collecting both liquid and solid materials such as metal chips mixed with oil/coolant. They have a large capacity, high suction performance and robust design.

## Coin-operated self service vacuums

- Superior suction power
- Tandem models have 2 vacuum motors and suction hoses
- Available in coins or token versions
- Simple cloth filter system for quick and easy maintenance

Coin-operated self-service vacuums for use on garage forecourts. All models use a simple cloth filter system for easy maintenance.

# ATEX zone 22 – Beware of explosive dust

With regard to Health and Safety vacuum cleaners, diseases are not the only danger. It is well-known that cotton or paper can burn, but also other materials such as flour or even metals can ignite. The presence of oxygen and an ignition source with sufficient energy and a flammable substance (gas, liquid or solid) are factors which can provoke an explosion. The finer the dust, the higher the risk of explosion!

With the ATEX directive 94/9/EC that came into force in July 2003, the removal and separation of explosive materials has become an international regulation. Many types of dust which are potentially explosive are classified as an ATEX (ATmosphere EXplosive) application and equipment must meet additional and very special requirements.

Nilfisk offers a range of safety vacuum cleaners to pick up explosive dust and separate it from the surrounding air. If dusts are to be vacuumed which are both explosive and hazardous, the vacuum must meet the requirements for both explosive and hazardous dust applications.

## **Additional test certificates and third party approvals**

ATEX Directive 94/9/EC puts the burden on the manufacturer to ensure that products supplied for use in explosive atmospheres are ATEX compliant. This means that for a Health and Safety vacuum designed for use in an explosive atmosphere, the machine must be ATEX compliant with reference to the particular working environment.

All Nilfisk Type 22 vacuum cleaners are ATEX compliant in zone 22, and this range of vacuum cleaners has passed a wide range of technical test requirements and third party approvals.

In addition to the normal requirements for a certified Health and Safety vacuum cleaner, some of the requirements to be met are listed below:

- Electric working materials must correspond to the regulations of the VDE 0165 "Setup of electrical equipment in explosive areas", for example EC system drives (free from sources of ignition).
- The machine must correspond to protection class IP 54 at least.
- Working materials must be marked with the occurring surface temperatures during constant use when these temperatures exceed 80°C. In addition, surface temperature must not exceed 135°C.
- Electric motors must be protected against short circuit, overheating due to overload or phase dropout.
- Air flow out of the vacuum must be directed in such a way that settled dust cannot be whirled up – exhaust speed max. 1 m/s at 50 mm above the floor.
- Conductive machine parts (including attachments such as the suction hose and hand tube) must be electrostatically earthed.
- Special coupling is to be used which secures the earthing and makes confusion with non-conductive attachment parts impossible
- Earthing resistance must not be higher than 1 MQ.
- Container casing must be made of very non-flammable material.
- Vacuums should be clearly marked with a warning label stating "approved for use with flammable dusts in ZONE 22".
- The vacuum should also be marked with L, M or H class, depending on which requirements apply.

Nilfisk single-phase Type 22 vacuum cleaners for ATEX zone 22 are tested and certified with the above requirements.

# Respiratory and skin diseases result in very high human costs

The handling of hazardous dust is a complex matter that demands innovative product development and competent engineering. As a specialist, Nilfisk offers proven, state-of-the-art solutions in every hazard class involving the demanding task of picking up health endangering dusts.

Working with hazardous dust demands the highest level of safety to ensure maximum health protection. Nilfisk offers Health and Safety vacuum cleaners for hazardous dust classes – **L** (light), **M** (medium), **H** (high), and asbestos, and for explosive dusts classified as ATEX Type 22. All our solutions meet the new pan-European standards and bear all the necessary statutory test symbols. The entire range is designed for professionals who also demand low noise operation, ergonomics, long-life and reliable performance.

SINCE 1997 – EN 60335-2-69, IEC 60335-2-69		HAZARD TYPES	DISPOSAL
Dust class / zone	Max. permeability		
L	1%	Removes 99% of: <ul style="list-style-type: none"> <li>• Dusts with OEL values &gt; 1mg/m<sup>3</sup></li> </ul>	-
M	0.1%	Removes 99.9% of: <ul style="list-style-type: none"> <li>• Dusts with OEL values &gt; 0.1mg/m<sup>3</sup></li> <li>• Wood dust</li> </ul>	Low dust
H	0.005%	Removes 99.995% of: <ul style="list-style-type: none"> <li>• Dusts with OEL values</li> <li>• Carcinogenic dusts</li> <li>• Dusts with germs or bacteria</li> </ul>	Dust free
Asbestos requirement	as H	<ul style="list-style-type: none"> <li>• Asbestos dust</li> </ul>	
Explosive dusts (ATEX Zone 22)	<b>Type 22</b> - As dust class L, M or H, with additional requirements	<ul style="list-style-type: none"> <li>• Dusts of dust explosion classes St1, St2 and St3 in ATEX Zone 22 (previously zone 11)</li> </ul>	Basic machine for ATEX Zone 22 with test M or H

These vacuum cleaners permit picking up dusts from dust class L. These include dusts with OEL values > 1 mg/m<sup>3</sup>.

These vacuum cleaners permit picking up dusts from dust classes L and M. These include all health-endangering, non-carcinogenic dusts with OEL values > 0.1 mg/m<sup>3</sup> and hardwood dusts.

These vacuum cleaners permit picking up dusts from dust classes L, M and H. These include all health-endangering dusts with OEL values, all carcinogenic dusts and dusts contaminated with germs and bacteria.

Asbestos is a group of naturally-occurring inorganic crystalline silicates which are found in the form of fibres. When subjected to mechanical loads these fibres can split, producing even thinner fibres, which can consequently be deposited in the lungs. Asbestos is not used anymore, but a lot of materials and buildings that contain asbestos have to be renovated. Asbestos dusts are only permitted to be picked up with vacuum cleaners conforming to dust class H.

These vacuum cleaners are approved to pick up explosive/flammable dust in ATEX Zone 22 as well as dust from dust classes L, M or H. Furthermore these vacuum cleaners are approved to be used as dust extractors.

## Powerful and safe dust extractors for hazardous dust

- Push&Clean™ - Semi-automatic filter cleaning system on selected models
- Dust class M certification
- PTFE long-life filter with non-stick membrane and minimum 99.9% filtration efficiency
- Flow sensor with combined acoustic and LED warning
- 30 litre container with steel castors and robust bumper
- MultiFit accessory system for the ultimate in task flexibility
- Rubber straps, tool box storage and optional trolley handle for convenient storage and transport
- Optional motor cooling filter, exhaust air collector and long-life filter bag

The ATTIX 33-2M comes with more suction power, sealed dust system, semi automatic filter cleaning and several other user benefits - designed to meet the tough requirements in building & constructions and other industries when picking up hazardous M class dusts. This range represents a superior solution for professional customers looking for a reliable machine and to protect their health and safety.

**Approved for work with M Class hazardous dust**

- Approved for work with M class hazardous dust
- Industrial specifications - robust construction and powerful
- XtremeClean™ fully automatic filter cleaning system takes care of filter cleaning tasks in just a few seconds without interrupting your work
- Washable PET Fleece filter for high efficiency and low maintenance costs
- SilentPower. High performance that is seen, but not heard

The ATTIX 761-2M is designed for demanding cleaning tasks that involve M class hazardous dusts. It features a durable 70 litre stainless steel container which can be easily emptied by tilting or lifting the container off the robust steel frame. Working efficiency is enhanced with the XtremeClean™ automatic cleaning system for optimum suction performance.

## Approved for work with H class hazardous dust

- Industrial specifications, robust construction, and powerful
- Push&Clean™ is a filter cleaning system which allows you to clean the filter in seconds... and continue your work (except ATTIX 751-OH)
- SilentPower. High performance that is seen, but not heard

If you are working with H class hazardous dust, you will find the perfect wet & dry solution here. Choose from 3 different container sizes and other features which enhance your working efficiency. The ATTIX 30-OH is a small machine with big performance and high mobility. The ATTIX 50-OH is a mid-size machine with Push&Clean™ filter cleaning system. The ATTIX 751-OH features a large stainless steel container which can be easily emptied by tilting or lifting off the robust frame.

**Industrial health & safety vacuum cleaner for M & H class hazardous dust**

- Industrial specifications, robust construction, and powerful... the definition of ATTIX 9
- Approved for H and M class dusts.
- Twin-motor industrial performance
- XtremeClean™ fully automatic filter cleaning system for high efficiency in H and M class
- Big surface H class filter for high efficiency and low maintenance costs
- Stainless steel sit down container for perfect handling and disposal
- 10 metre cable for a large working radius
- Disposable and safety filter bag as standard

The ATTIX 965-0H/M SD XC is the most powerful two-motor machine that is approved to be used for both H and M class dusts. Featuring XtremeClean™ automatic filter cleaning and a stainless steel sit down container. The perfect disposal concept for Industrial use and health endangering and carcinogenic dust.

Item no.

**OVEN CLEANING SET 3 PCS**

3-piece, 38 mm dia. connection

O O O

14341

4 m suction hose, heat resistant, Ø36

O

61779

2.5 m anodised aluminium extension tube

O

46691

Oven nozzle "XL", 400 mm

O

107408074

**PIPE CLEANING SET Ø 38MM 4-PCS**

4-piece, 38 mm dia. connection

O O O O

63215

4 m suction hose, universal, Ø38-Ø36

O

15365

2.5 m extension tube, anodised aluminium

O

15340

Pipe cleaning nozzles for 70-120 mm dia. pipes

O

7964

Pipe cleaning nozzle for 120-220 mm dia. pipes

O

8054

**INDUSTRIAL SET 38**

5-piece, 38 mm dia. connection

O O O O O

302002881

4 m suction hose, universal, Ø38

O

302002796

2 x 500 mm extension tubes, stainless steel

O

107402474

Curved hand tube, stainless steel

O

302002889

Industrial adjustable floor nozzle, 400 mm

O

302002798

Crevice nozzle, plastic, 300 mm

O

302002890

**INDUSTR. FLOOR SET Ø50MM 6-PCS**

6-piece, 50 mm dia. connection

O O O O O O

63216

4 m suction hose, universal, Ø50

O

15358

Curved extension tube, anodised aluminium

O

15335

Industrial adjustable floor nozzle, 500 mm

O

15343

Replacement rubber lips

O

15346

Crevice nozzle, special plastic, 350 mm

O

7102

Coarse dirt nozzle, aluminium, 200 mm

O

41100

**STANDARD VAC SET Ø50MM 3-PCS**

3-piece, 50 mm dia. connection

O O O

6085

4 m suction hose, universal, Ø50

O

15358

Diagonal tube nozzle, rubber, 250 mm

O

7868

Crevice nozzle, special plastic, 350 mm

O

7102

**CHIP SET Ø50MM 2-PCS**

2-piece, 50 mm dia. connection

O O O

61681

4 m heat resistant suction hose, Ø50

O

15182

Diagonal tube nozzle, rubber, 250 mm

O

7868

**BUS SET Ø 50MM 6-PCS**

6-piece, 50 mm dia. connection

O O O O O O

63217

16 m suction hose, universal, Ø50

O

5152

2 x 560 mm extension tubes, plastic

O

7102

Crevice nozzle, special plastic, 350 mm

O

41100

Coarse dirt nozzle, aluminium, 200 mm

O

40458

Suction brush, plastic

O

65081

Hose holder

O

65081

O Can be used. (Items included as standard can be seen on the machine pages)

## Suction Hoses

### Universal

Colour: Silver metallic, Ø27, Ø32, Ø36, Ø38, Ø50  
To use: Temperature at -50 to +60°C

### Antistatic

Colour: Black, Ø27, Ø32, Ø36, Ø50  
To use: Temperature at -50 to +60°C

### Oil-resistant

Colour: Brown, Ø36, Ø50  
To use: Temperature at -60 to +120°C (short term +150°C)  
Bend radius: Ø27 r = 60 mm, Ø32 r = 70 mm, Ø36 r = 75 mm, Ø50 r = 120 mm

### Heat-resistant

Colour: Brown, Ø36, Ø50  
To use: Temperature at -60 to +120°C (short term +150°C)  
Bend radius: Ø36 r = 75 mm, Ø50 r = 120 mm

### Metal

Colour: Galvanized, Ø50  
To use: Temperature at -50 to +120°C  
Bend radius: r = 180 mm  
High wear-resistant. Not suitable for acid and lye.

### Chips, abrasive

Colour: Transparent, Ø50  
To use: Temperature at -40 to +90°C (short term +125°C)

Bend radius: Ø60 r = 60 mm  
Special for metal shavings, glass, sliver and other materials, oil-resistant, antistatic, aluminium sleeves and steel wire coil

### Health & safety wet & dry vacuum cleaners for ATEX Zone 22 explosive dust

- Approved for work in ATEX Type 22 environments with explosive dust
- Industrial performance, robust construction, and loaded with useful features to maximise your efficiency and minimise your costs
- Brushless, long life motors for top performance and durability
- Automatic Start/Stop for electric tools connected to Attix 7 variants
- A full range of Type 22 accessories are available to tailor your machine to your application

The ATTIX 40 Type 22 and ATTIX 7 Type 22 machines are powerful vacuum cleaners with stainless steel containers approved to be used for both M class dust and ATEX Zone 22 environments. The built-in FlowSensor and acoustic warning signal monitors air speed in the suction hose to make sure that it does go below the minimum 20 m/s. The perfect concept for industrial use where safety is a must.

**Health & safety wet & dry vacuum cleaner for ATEX Zone 22 explosive dust**

- Industrial specifications, robust construction, and powerful
- Approved for ATEX Zone 22, H and M class
- 2 brushless EC (Electronic Controlled) motors
- Twin-motor industrial performance
- XtremeClean™ fully automatic filter cleaning system for high efficiency in H and M class
- Big surface H class filter for high efficiency and low maintenance costs
- Stainless Steel SitDown container for perfect handling and disposal
- 10 metre cable for a large working radius
- Disposal and Safety filter bag as standard

The ATTIX 995-0H/M SD XC Type 22 is a powerful twin-motor machine that is approved to be used for both M and H class dust in a Zone 22 environments. Featuring XtremeClean™ filter cleaning and a Stainless Steel SitDown container. This is perfect solution for industrial use where safety is a must.

Domestic Pressure Washers and Wet & Dry Vacuums

## Compact and handy high pressure washers for basic outdoor cleaning tasks

- The C110.7-5 X-TRA is easy to use, move around and store with its compact and lightweight design
- The C110.7-5 X-TRA has a built-in trolley
- The automatic start/stop system along with an aluminum pump makes this a reliable product

You can make good use of the C110.7-5 X-TRA pressure washer. It is a handy size and the built-in trolley makes it easy to transport.

## Handy high pressure washers with trolley for basic outdoor cleaning tasks

- Automatic start/ stop system along with aluminum pump makes it a reliable product
- The compact design even with trolley and low weight makes it convenient to move around
- With Click&Clean connectivity a broad range of accessories ranging from nozzles, brushes, foam sprayers and patio cleaners can be attached
- The C120.7-6 has a built-in trolley

The C120.7-6 models are suitable for users with light to moderate cleaning tasks. If you are in need of a compact and easy to use high pressure washer with a good cleaning performance then the C120.7-6 is worth considering. It is super for tasks around the house and garden such as cleaning of cars, bicycles, garden furniture and small to medium sized patios.

## All round use - handy and powerful

- 135 bar max pressure
- Sturdy design with aluminum pump and induction motor
- Automatic start/ stop system
- Less noisy
- Trolley for high mobility
- Hose storage hook for convenient storage of hose
- Storage of gun, lance, nozzle and foam sprayer
- Click&Clean connectivity for quick and easy change of nozzles

### HIGH PERFORMANCE AND FULL FLEXIBILITY

This powerful Nilfisk high pressure washer easily handles larger and frequent cleaning tasks. From gentle cleaning of more soft or sensitive surfaces to blasting away ingrained dirt. The large handle, sturdy wheels and long hose all ensure the ease-of-use you want, when working for longer periods of time. The powerful choice for harder tasks. To increase performance, this Nilfisk comes with Click&Clean connectivity for a range of optional accessories.

**All round use - high performance**

- Powerful pressure and water flows
- Automatic start/ stop system
- Sturdy build with metal pump and induction motor for long life
- Telescopic handle for convenient user height and later storage
- Trolley ensures high mobility and ease of use
- Rubber suspension ensures a lower noise when working
- Storage of gun, lance, nozzles and foam sprayer onboard
- Convenient storage of electric cable
- Can be used as stationary machine with optional wall hook

**HIGH PERFORMANCE AND FULL FLEXIBILITY**  
 This powerful Nilfisk high pressure washer easily handles larger and frequent cleaning tasks. From gentle cleaning of more soft or sensitive surfaces to blasting away ingrained dirt. The telescopic handle, sturdy wheels and long hose all ensure the ease-of-use you want, when working for longer periods of time. The powerful choice for harder tasks. To increase performance, this Nilfisk comes with Click&Clean connectivity for a range of optional accessories.

**Sturdy robust top of the range consumer pressure washer for powerful outdoor cleaning**

- New cleaning nozzles for optimised cleaning
- Flow regulator to match pressure to cleaning task
- Maximum Pressure 180 Bar
- Aluminium cylinder head
- Telescopic handle for easy storage
- Built-in trolley and large wheels for excellent mobility on all surfaces
- Pressure regulation
- Soft grip on handle and gun
- Accessory storage on the machine
- Hooks for storage of electric cable
- Internal detergent system with regulation of detergent dosage
- Long lance and 10 m high pressure hose
- Hose reel

This is a sturdy and robust pressure washer - the top of the consumer range. Easily handles any application in a reliable, effective and Powerful way.

## 18 litre wet and dry vacuum cleaner with power tool socket for home use

- The Nilfisk Buddy II 18 T makes it handy working with power tools and removing dust and dirt in the same process
- Attach your power cord to the machine and connect the suction hose to your power tool with the included power tool adapter
- 1200 watt motor will pick up any debris you want to get rid of
- The blow function provides you with another option for cleaning
- Two big wheels at the back and two rotation wheels in front make the machine very stable and easy to move around
- The standard wet filter protects your turbine for a long lifetime
- The built in accessory holder provides storage for your accessories so they are always at hand
- Ergonomic grip so you will have a balanced machine when you carry it around
- The grip is shaped so you can place the tube on top when having a break

The Nilfisk Buddy II 18 T is a small, lightweight yet powerful wet and dry vacuum cleaner. This 18 litre version will be the perfect choice when you need to pick up wet or dry debris in your home, your car, your workshop or garage. It is easy to move around and compact to store. This vacuum is equipped with an electrical power outlet to connect your power tool.

At Nilfisk, we are proud to be one of the world's leading manufacturers of professional cleaning equipment with a heritage of over 110 years in the industry. With global company headquarters in Denmark, our products are produced in Europe, the Americas and China, and used worldwide. Nilfisk has an extensive network of sales entities across 45 countries and is represented in more than 100 countries around the world.

Our products cover the broad range of needs of the professional cleaning customer. Our main product lines are floor care equipment – such as professional scrubber-dryers and sweepers, vacuum cleaners and high-pressure washers.

Our products are recognised for their high quality and reliability.

We see sustainability as an integral part of sound business practice. We develop cleaning solutions that provide you with cleaning efficiency while using less energy, less water and less detergent. When we reduce consumption of resources, it benefits both you and the environment. As your professional business partner, we must constantly innovate our business in order to strengthen yours. This is the promise Nilfisk makes to you as your trusted partner.
